Calling Peachtree City home since 1982
The tree-lined town square will be the commercial and civic heart of Old Town. With an enchanting mix of two and three story brick and wood buildings, the character of the square takes its cues from treasured towns such as Columbus, Newnan and Madison, Georgia. Old Town also draws inspiration from other locales like Oxford, Mississippi and Bluffton, South Carolina. Porches of wood and iron shelter the sidewalk and create a cool shaded walk of shops, restaurants and offices. The square has an ample green perfect for community gatherings.
