Revised 4/2018

[www.peachtree-city.org](http://www.peachtree-city.org)
Instructions: The written narrative is a description of how the proposal relates to the comprehensive plan and must also address the evaluation criteria listed in Section 1304(d) of the Peachtree City Zoning Ordinance:

The following factors, where relevant, shall be considered in evaluating a proposed change to the zoning map:

(1) Whether the zoning proposal is in conformity with the policy and intent of the land use plan;
(2) Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property;
(3) Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property;
(4) Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned;
(5) Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools; and
(6) Whether there are other existing or changing conditions affecting the use and development of the property which give supportive grounds for either approval or disapproval of the zoning proposal.

When addressing (1) above, please consider the main components of Peachtree City’s Comprehensive Plan:

1. **Land use:** Whether the proposed zoning and/or land uses are consistent with the long-range land use designation, as well as:
   (a) Proposed uses, maximum number of dwelling units (if applicable), amenities such as parks and open space.
   (b) Impacts on public & educational facilities.
   (c) Mitigation of impacts on neighboring properties, including vehicular access plan, landscaping and screening, setback and buffer requirements, and transitioning of density/ intensity of land use.
   (d) Proposed special amenities including parks and open space, as applicable.
   (e) Proposed phasing of development.

2. **Community Design:** How the proposal will address the principles & standards of community design, including:
   (a) How the project fits within the village concept of the city as set forth in the city’s comprehensive plan.
   (b) Providing multi-use path connections between residential and commercial properties and community facilities.
   (c) Preserving natural resources on the site. Preservation of specimen trees and vegetation along roadways or boundaries.
   (d) Incorporating natural storm water management designs as wet ponds and other community amenities.
   (e) Building architecture, signs, landscaping, lighting, and other urban design elements.
   (f) Preserving and/or providing open space.

3. **Economic Development:** Identify whether or not the proposed use is an existing county-based business or targeted industry, as identified by the Fayette County development authority and/or the development authority of the city. Provide an estimate the development will have on the city's tax base.

4. **Fire and Rescue:** Discuss how fire safety will be addressed:
   (a) Impacts of the proposal on established level of service (LOS) standards.
   (b) Additional mitigation measures such as sprinklers and fire-rated construction if outside travel time.
   (c) Proposed improvements, including possible transportation improvements to achieve a satisfactory LOS.

5. **Potable Water:** Describe how water will be provided to the site.

6. **Sewer:** Describe how sanitary sewer service will be provided to the site.

7. **Transportation:** Describe measures to achieve level of service 'D' or better. The limits of any traffic study shall be determined by the city engineer and the city’s traffic consultant and shall include:
   (a) Impacts of the proposal on established level of service (LOS) standards.
   (b) Improvements proposed, both motorized and non-motorized.
   (c) Address connectivity of sidewalks and/or multi-use path system to adjacent properties, as well as the connectivity of internal roads to adjacent properties.
