“It does not matter how slowly you go as long as you do not stop” - Confucius
Back 2 Basics is an instructional basketball skills and drills program. The instructors will evaluate each player to determine current skill level. Then, by using a progression scale built on that level, it allows each player to develop at his or her own pace. The instructors will provide insight on the need for warming up and exercising properly and assist the player with a weight training program as needed. Back 2 basics training includes ball handling, passing and shooting drill and techniques. The goal is to enhance the level of fundamental skills in the player allowing them to progress easier to the next level. We also promote positive attitudes and hard work ethics while at the same time keeping the training fun and interesting.
